SEWAGE TREATMENT PLANT

Golf courses all around the world have been infamous for being guzzlers of ground water and chemicals. With the aim to eliminate use of ground water as much as possible and reduce usage of chemicals, a MBBR technology based STP (Sewage treatment plant) with a capacity to treat 500,000 liters of sewage every day has been installed at Karma Lakelands. Sewage is piped from our residences, Klub Karma and the surrounding neighborhood areas. The treated water is used for irrigation purposes thus, reducing the usage of ground water. Recycled water is nutrient-loaded.

BIO COMPOSTING & PRANIC WASTE SEGREGATION

USING KITCHEN WASTE & DRY LEAVES, WE CREATE ORGANIC COMPOST

KARMA DAY CARE

In our pursuit of building a bright and sustainable future, we are running an NGO, which is home for underprivileged children of our on-site workers. Committed staff members and volunteers of the NGO look after the education, clothing, food and day care of these children. Residents, golfers and visitors often sponsor meals for them on their special days and even fund the education for a number of children. Today, we can proudly say that our children are not underprivileged anymore.

'NO HORN' POLICY & ENGINE IDLING

CAR STICKERS

SIGNBOARDS

SAY NO TO 'PLASTIC'

DISCOURAGE THE USE OF PLASTIC AT ALL COSTS, WHETHER PLASTIC BOTTLES OR STRAWS

We discourage the use of plastic straws as these are harmful for the environment.

#SuckersSuckStraws

We provide paper straws (only upon request) due to ecological reasons

WHY THROW WHEN WE CAN GROW?

WHY THROW WHEN YOU CAN GROW...

Be your own gardener and create your own nursery of plants. You can use commonly available seeds of Mango, Jamun, Neem etc. and plant them in the disposable plastic containers / bags that we all have available at home.

Once these seeds turn into saplings, replant them in the ground or hand over to us and we will nurture them to become trees.

> Hand over your saplings to us at K Villa (Vasant Kunj) or Karma Lakelands (Sec 80, Gurgaon) for planting.

> > Let's together make a difference!

- PROMOTING PLANTATION OF AS MANY TREES AS POSSIBLE AND WE ARE HAPPY TO ASSIST.
- UTILIZE DISPOSABLE PLASTIC THAT CAN'T BE RID OFF FOR A BIGGER PURPOSE.

From a seed to a grove. "Every society needs individuals who will go on planting mango trees without thinking whether they will get to eat the fruit or not." - Sadhguru

At Karma, we believe in giving back to nature more than what we seek from it. In this endevour, we are planning to utilize your mango seeds in planting fresh mango trees. Come, join us in this noble cause!

Wash the Mango seed properly

Soak it in water for nearly 2 hours

Enjoy your Mango

Enjoy Mangoes for life us for replanting

Hand over your seed / sapling to us to plant ourselves or pass on to a) Give Me Tree Trust (Mayur Vihar, Deihi) b) Isha Foundation (Chhattarpur, Deihi). Let's together make a difference!

> Karma Lakelands Pvt. Ltd. 5 Green Avenue Vasant Kuni. New Delhi - 110070 Naurangour, NH-8, Manesar, Gurugram, Harvana - 122051

YOUR SAPLINGS,
OUR LAND. WE
GROW TREES AND
PLANTS TOGETHER

PEEPAL BABA
PLANTATION INITIATIVE

E-WASTE & ECO BRICKS

- ► ENCOURAGING DISPOSING OFF, OF OUR ELECTRONIC WASTE TO BE RE-CYCLED
- ► USE SINGLE USE PLASTIC FOR ECO BRICKS WHICH CAN BE USED FOR BUILDING BLOCKS INSTEAD OF RUINING THE ENVIRONMENT FURTHER

In our endeavor to create a clean and green planet, we are accepting E-Waste and Eco-Bricks for hazard-free, efficient processing.

E-Waste

Old TVs, Computers, Electrical Items, Battery Cells, Etc.

Eco Bricks

Plastic bottles stuffed with non-biodegradable waste to create a reusable building block.

Noida - B 23, Sector 46, Noida 201301

E-Waste is being processed in collaboration with Earth Sense Recycle Pvt. Ltd

4 EASY STEPS TO YOUR OWN ECO-BRICK

KARMA LAKELANDS

"No one has ever become poor by giving." Anne Frank

ECO URINAL BLOCKS

This is a water-less urinal.

We use Eco Urinal Blocks which help in saving more than 1,00,000 liters of potable water each year.

'NO SMOKING' – PERMITTED ONLY AT DESIGNATED AREAS

KARMA LAKELANDS THE ONLY NON-SMOKING GOLF COURSE

SOLAR ENERGY

KARMA LAKELANDS, IS SOLAR ENERGY ENABLED WHICH NOT ONLY PROVIDES ELECTRICITY TO OUR ENTIRE PROPERTY DURING THE DAY BUT ALSO PROVIDES SHADE TO OUR KLUB VISITORS' CARS BECAUSE OF THE LOGICAL PLACEMENT OF THE PANELS.

TOTAL CAPACITY OF THE SOLAR PANELS IS 412 KWP.

BEE – FARMING

If the bees disappeared from the surface of the globe, then mankind would only have four years of life left. "No more bees, no more pollination, no more plants, no more animals, no more man" Elbert Einstein. In the pursuit of promoting pollination on the planet, we get rewarded with honey from our own apiary at the resort and offsites. Our bee farming initiative improves the health of agriculture and plant life in a 7-8 km radius of the apiaries, as bees are known to be the best pollinators. Our bees produce organic honey which is tastier, healthier and is replete with enzymes and nutrients that aid immunity from local allergies.
